Salisbury-Spencer, N. C.

The Cities of Progress and Prosperity

PREFACE

It is with pleasure that we present Volume VII of the Salisbury-Spencer, N. C., Directory. Since our previous issue was made the two cities have taken on new life and shown unquestionable evidence of progress, and the chances are that they will continue to progress and grow; for why should they not? For they have many advantages and things to offer. To the homeseeker they offer beautiful and ideal home sites, and the climate is mild, healthy and invigorating. To the visitor or tourist it is a spot where rest and pleasure both can be had. To the manufacturer they offer all that can be desired, splendid factory sites, ample railroad facilities, good freight rates and no labor troubles. Mr. Manufacturer, Salisbury-Spencer invite you to come and see for yourself.

As a rule, you can generally size up a town by its City Directory, because the Directory alone gives a complete history of the business interests of a city or town; in the Directory you will find listed the varied enterprises of a city, be they large or small; in the Directory you will find the name of most every person from the hovel to the mansion, and can determine the character of citizenship.

We have endeavored to give to the public, not only a Directory, but one which is in keeping with the surroundings and the progress of the cities.

The world is a great storehouse from which we can take out no more than we put in, and for the liberal support we have received and the courtesies shown our representatives, we have striven to return in proportion our best services. While no Directory is perfect, we believe that the Salisbury-Spencer Directory comes as near as any in being so, and will fully meet all the requirements.

E. H. Miller, President.

Power of Advertising

¶The CITY DIRECTORY is the "power" that generates information for the buyer that he may know who deals in the products he is most interested in and wishes to purchase.

¶If YOUR business is not classified properly, with a display advertisement arranged to describe your particular line of business, how can "you" expect the buyer to trade with you, only by chance and a buyer seldom takes chances.

¶ADVERTISING is the foundation upon which all successful business is built. To be successful YOU must apply this to "your" own particular business.

¶ADVERTISING is the multiplication table pure and simple—when applied to any business, it is an "idea" multiplied.

ADVERTISING

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told the bo where the bakery was. Or by the window of the bakery itself. There's isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But ain't willing to give the advertiser anything for telling the other folks. He is, to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of a lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.

LIVINGSTONE COLLEGE

SALISBURY, NORTH CAROLINA

The Chief Institution of the A. M. E. Zion Church, opening First Wednesday in October Each Year and continuing thirty-four weeks exclusive of holidays. It is religious but non-sectarian and affords splendid opportunity for developing character and making good citizens.

Offers Superior Training in the Following Departments of Study:

1. High School Course based upon the completion of eight grades of grammar school work. This course, also, with a slight variation, serres as the College Preparatory.

2. A Classical Course, for a more complete acquaintance with the Languages, Sciences, Literature, Mathematics, History and Philosophy.

3. A Theological Course, for the preparation of candidates for the Ministry and the training of Persons for Home and Foreign Missions.

4. A Course in Music, for the purpose of affording superior musical advantages for pursuing the study of music in all its highest branches.

5. An Industrial Course, to enable the students to become proficient in using the hand as a means to make a living.

6. Commercial Course comprising shorthand, bookkeeping and typewriting.

The school enjoys a beautiful and healthful location especially fit for study and instruction, with a campus of forty-six acres studded with maples and oaks. This location becomes an ideal place for systematic development of good citizens. A farm of 270 acres acords ample opportunity for securing knowledge of principles of successful farming.

The students of this institution come from thirty states in the Union besides West Indies, Central America, South America and Africa. The Faculty consists of 25 Professors and Instructors. Buildings, 7.
